

```
import javax.swing.*;

public class HelloAgain {
    public static void main (String[] args) {
        JFrame frame = new JFrame ("Hello Again!");
        JLabel label = new JLabel ("Hello Again!",JLabel.CENTER);
        frame.getContentPane().add(label);
        frame.setSize(300,300);
        frame.setVisible(true);
    }
}
```
